ACRYLIC INKS WITH ANTJE

You will experiment with different types of ink, tools and techniques such as outlining, layering, spraying and splattering. Find beauty in the unexpected as you watch the colour spread across the paper, then control ink's vivid character by giving it direction and purpose. Antje Martens-Oberwelland will demonstrate techniques and provide reference photos and guidance, but students are encouraged to create a unique art piece of their own. Cost is \$60 . All materials (paper, ink and tools) will be provided for a materials fee of \$20 per student.

Registration forms provided at VPG 519 396 6699 or download from
